Note:

(1) The average project duration (in months) represents the average time taken for completion of projects executed during the respective year. Variations across the years are primarily attributable to differences in the size, scope and complexity of projects undertaken. Prior to Fiscal 2024, the Company predominantly executed projects with contract values below ₹5 crore, while from Fiscal 2024 onwards the Company has undertaken relatively larger projects exceeding ₹5 crore, which typically require longer execution timelines.

(2) RKM (Route Kilometer) refers to the total length of a railway route and TKM (Track Kilometer) refers to the total length of all tracks laid.

(3) Traction Sub-Station (132 kV / 27 kV) an electrical installation that receives high-voltage power from the grid at 132 kV and steps it down to approximately 27 kV for supply to the 25 kV AC overhead railway electrification system.

(4) MLD (Million Liters per Day) denotes the capacity of water or sewage treatment systems used in railway infrastructure.

(5) RMU (Ring Main Unit) is a compact medium-voltage switchgear used in ring-type power distribution networks, and VCB (Vacuum Circuit Breaker) is a breaker that extinguishes electrical arcs within a vacuum.

(6) PLC (Programmable Logic Controller) is an industrial control computer that automates machines and processes. RTU (Remote Terminal Unit) collects data from remote sites and transmits it to a control center. HMI (Human Machine Interface) is the screen or interface through which operators monitor and control systems.

8.	**Risk Factors**
	The following are the top 10 internal risk factors as disclosed in the Draft Red Herring Prospectus:

1. We derive significant portion of our revenues from projects awarded by government and government-owned customers, accounting for 27.57%, 56.43%, 69.66% and 62.90% of our revenue from operations during the period ended September 30, 2025, Fiscal 2025, Fiscal 2024 and Fiscal 2023, respectively, which subjects us to various risks.
2. Our projects are primarily concentrated in Karnataka, accounting for 88.75%, 43.17%, 40.06% and 77.18%of our revenue from operations during the period ended September 30, 2025, Fiscal 2025, Fiscal 2024 and Fiscal 2023, respectively, which exposes us to concentration risks, regulatory uncertainties, and potential adverse regional developments.
3. Our order book may not be representative of our future results, as projects included in our order book particularly for the projects where we are the lowest bidder, may be cancelled, modified, or delayed beyond our control, leading to significant deviations from estimated income and adversely affecting our business, reputation, financial condition, and future prospects.
4. A substantial portion of our revenue, being 21.26%, 47.13%, 60.46% and 36.91% during the period ended September 30, 2025, Fiscal 2025, Fiscal 2024 and Fiscal 2023, respectively, is derived from railway infrastructure projects, and any slowdown, disruption, or adverse development in this sector could have a material adverse effect on our business, financial condition, and results of operations.
5. We derive a significant portion of our revenue from a limited number of customers. Any loss of such customers or reduction in business from them could adversely affect our business, cash flows, financial condition and results of operations.
6. Our business is heavily dependent on procurement of construction materials from our suppliers. We do not have long-term agreements with our suppliers of construction material and any increase in the cost of, or a shortfall in the availability of, such construction materials could have an adverse effect on our business and results of operations.
7. We are required to furnish performance guarantees as part of our business. Our inability to arrange for such guarantees or the invocation of such guarantees may adversely affect our cash flows and financial condition.
8. Delays in completion of our current and future projects and time overrun could have adverse effect on our business prospects and results of operations.
9. Premature termination of projects may adversely affect our business, financial condition, and results of operations.
10. Our business depends significantly on our ability to pre-qualify, bid for and secure infrastructure projects, and failure to do so, or termination of contracts awarded to us, may adversely affect our business, financial condition and results of operations.
